

British Dressage Operational Plan for the resumption of activity – May 2020

Overview

On 17 March all British Dressage affiliated training and competition activity was suspended in order to protect the health and safety of all participants and stakeholders, in line with government measures introduced the following week to help collectively contain the coronavirus outbreak. Initially, the suspension was put in place to cover a four week period until 16 April, which was then extended on 1 April to cover a further six weeks, up to and including 31 May.

The Board and Senior Management Team have continued to monitor the situation closely, working with colleagues across the British Equestrian Federation and our partners at UK Sport, Sport England and the Sport & Recreation Alliance, in order to respond to government advice and guidance. As part of this process we have been actively engaging in discussions about the resumption of sporting activity, as and when conditions allow and it is safe to do so. This document provides an overview of our operational phases to manage the impact of the pandemic on the sport of dressage, although there are no specific timings for these at this stage as they will be directed by government.

The '**Response**' phase started in late February when the first UK cases were confirmed and will continue until government eases the lockdown restrictions. The '**Resume**' phase focuses on the sport and training elements of BD, depending on when sporting activity, travel and public gatherings will be permitted, with measures in place to meet any social distancing requirements to protect the health and safety of all participants. In the final phase, we can move to a more proactive approach as we work towards '**Recovery**' of our organisation with a full competition calendar re-instated, financial stability re-established and membership returning to pre-pandemic levels.

Phases for operational planning

Stages for the resumption of activity

During each phase, we will aim to provide a roadmap for our members to follow, subject to the government restrictions and ongoing social distancing measures in place.
