

Beat This Dressage to Music

Ever fancied giving dressage to music a go but not sure where to begin? Or have you competed at dressage to music before and would like to refresh your routine? Our services and clinics are aimed at beginners to Grand Prix riders, amateurs or professionals, focussing on providing a fun and informative way of helping you achieve the best possible results in riding your horse to music, whether it be competing or assisting with your training.

We can design your floor plan and offer expert advice on choreography, whilst helping you chose the right music that enhances your freestyle performance in a professional way.

Why not attend one of our popular one-to-one clinics which offer an actual riding to music experience where you obtain a “feel” for the music you are riding to, that also suits your tastes and your horse’s style? We’ll also film you so that you can have your own music video!

Whether you are looking for floor plan design, music editing to a floor plan, filming, training CD or private ridden consultation at your yard, our flexibility ensures we are able to deal with most requests.

Prices, packages and clinics available to view online on at
